### Abstract:

To examine Earth Quakes that occurred with huge property loss or population loss and factors responsible for it with these results, precautionary measures are suggested and also remedies to be taken astrologically are given. The details of the incidents - Date, Time, Place are taken and with all the other details are taken. The chart is laid down and analyzed completely.

**Key Words:** Earth Quakes, Eclipses, Richter scale, Magnitude, Planets, Retrograde, Conjunction, Opposition, Mutual Aspect, Signs & Stars.

### Introduction:

Earth Quakes are a major natural calamity that influences the whole world. It is associated with Eclipses. The effects are of two types - Population loss and Property loss. Either of these population or property loss occurs in many cases. In the case of some earth quakes both property and population occurs. In this work deep analysis of different Earth Quakes is done and factors responsible for each loss is laid down.

### Method Applied:

- Twenty charts of incidents laid down on day, time and place with the information from media.
- Eclipses associated with these dates are noted.
- The Geographical Coordinates of the place where incident occurred is related to planets, signs
- Reasons for property loss and population loss are concluded.

### Example:

Date-26-06-1941, 06-22-03 AM, Andaman and Nicobar Islands

This Earth Quake caused wide spread damage on middle and Southern Andaman Islands. Its magnitude is 7.7 on Richter scale. Most masonry structures in and around Port Blair were badly affected. No population loss is there.

### Eclipse Associated:

- Solar Eclipse- 27-03-1941, 20:08 hrs
- Lunar Eclipse -13-03-1941, 11:51hrs
- 26.2 South, 110.9 west, 12.50 north, 92.57 east - Andaman and Nicobar islands.

### Geographical Coordinates:

The Mars-Ketu combination in Pisces, natural Twelfth house represents jails.

### Analysis:

Lagna is Gemini. Retrograde Mercury, Sun, Moon and Venus are in Lagna. Lagna has more benefits. And Saturn, Uranus and Jupiter are in Twelfth. These factors are responsible for loss at Jails. All the four planets in Lagna aspects Mars and Ketu (Gemini aspect). Saturn is at Zero degrees. Jupiter and Venus saved people.

### The Astrological Considerations:

The idea that somehow Mars Jupiter and Saturn govern the destructive action of the earth and the notion of earth tides as possible triggers for Earth Quakes is gaining popularity. Earth tides are caused as the rotating earth is influenced by the combined gravitational pull of the Moon and Sun. The most careful scientific study does not reveal statistically meaning full correlations of earth quakes occurrence with tidal loading.

### Timing of the Event:

Timing of the event is based on transit and Navamsa of transit through the following factors.

- When a planet enters a sign
- When the planet gets combust
- When the planet rises
- When the planet is in retrogradation
- When the planet directs
- Combined influence of the planets Mars-Saturn
- The theory of natural zodiac.

### Results:

With analysis of twenty incident charts, the following points are arrived

- Fourth house afflictions are responsible for property loss
- Conjunctions of malefic planets are responsible for property loss.
- Rahu-Ketu axis triggers the loss of population
- Benefic influences of Lagna is a saving factor.
- Jupiter is major saving factor of life.
- Benefic nature of Moon saves huge masses
- Strength of Venus is also a positive factor.

### Conclusions:

With the help of information from this study paper precautions can be taken by the Government and people of the related place with the obtained Geographical Co-ordinates indicated by the Lagna of the Eclipse occurred. Predicting earthquakes in advance with the maximum accuracy should be worked out. It should be like giving a weather report. Warning should be given well in advance to lessen the effect. These all should be done using Cosmological, Philosophical, Metaphysical, Geographical and Geological knowledge along with the help of divine Astrological knowledge. Take more precautions In oarthquako prone areas as to see the construction of the buildings according to perfect vasthu, in a way immune to seismic disturbances. Government should take care in those areas where earthquakes occur frequently

and spread the knowledge of earthquakes to one and all. Some of the observations concluded from these charts are as follows:

- Earthquakes were caused by the action of eclipses.
- Four or more planets were in conjunction that too in malefic houses or signs owned by natural malefic.
- Planets in Retrograde, more the number more the effect. Or changing their direction, from direct to retrograde or retrograde to direct.
- Influence of Saturn was seen in all the charts
- Planets just changed their sign. Planets in Zero Degree.
- Planets in square to each other are also showing their effect especially when they are malefic.
- Mostly Rahu - Ketu are in fixed or fiery signs
- Saturn and Ketu combinations, greatest mutations were responsible for worse earthquakes.
- Benefic aspect to lagna and lagna lord saved the lives of people.
- Subha karthari yoga for lagna also proved positive
- The intensity was much when there was no help from friendly planets and enemies were showing the effect
- The effect of exalted planets was positive only in the case of Saturn and lagna lord and in one case Jupiter also.

Government should prepare the people with the knowledge of seismology and with the help of Astrology the havoc of natural calamities can be lessened. Finally it is only the supreme divine, who can predict with certainty and what has been foresail is indeed again a divine enactment. What we conclude is only a miniscule of understanding of our ignorance of supreme divine design. All our attempts are like trying to show a candle to sunlight. I fully understand and surrender to thee.
