Abstract:

The five elements are essence of entire world, both within us and outside. According to the Philosophy of Kalapurusha, the houses (signs) are divided into four Thrikonas (Trines). They are Dharma (1-5-9), Kama (3-7-11), Artha (2-6-10), and Moksha (4-8-12). All thrikona rasis are having one and same elements. Among the ten kind of Thirumana poruttham, (marriage matching) 8th one is Vasya Poruttham. About 80% of concept of the "Vasya Poruttham" comes under the creed of Dharma (1-5-9), Kama (3-7-11) thrikonas and philosophy of elements. Marriage-Match making according to the "Pancha Butha Thathuva" (Philosophy of five elements) is very compatible. The ascendant of native and the ascendant of life partner (spouse) set in the Kama thrikonas (3-7-11) and Dharma thrikonas (1-5-9) are good for marriage. If so they are very compatibility. Their marriage life becomes a good life of love and charity. The "Sastashtaka" rasis (6-8) are not good for marriage matching. It is an opinion of experienced and expert Astrologers.

Key Words: Kalapurusha Thathuva, Pancha Butha Thathuva (Five Elements) Thrikonas (Trines), Sastashtaka (6-8-Rasis), Vasyam (Fascination), Marriage –Match, Compatibility.

Introduction:

Marriage also called matrimony or wedlock is culturally and legally recognized union between two persons called spouse or Life partner. A marriage ceremony is called a wedding. In India marriage is a sacred occasion for Hindus. Marriage is for reasons such as family, sexuality, birth of heirs, Materialization of property and so on. The parents and aged relatives of boy and girl to be married, take great care before getting them into wedlock as there is no turning back from the marriage vow. Before finalizing a marriage, the parents of boy and girl approach an astrologer to match and tally the Horoscopes of boy and girl. If the horoscopes are compatible, parents give their consent and marriage is solemnized. In this system, it could not be determined easily which girl is going to be the wife of a boy or which boy is going to be the husband of a girl. Match making according to the "Pancha Butha Thathuva" (Philosophy of five elements) is very compatible. Their rasis (signs) are intertwined naturally. This fact is researched in this article.

Wedlock is a Holy Knot Made by the God:

"Wedding and Contentment are to be organized between two equal persons"¹ It is a proverb in Sanskrit language. The word "equal person" has so many potential meanings. The suitability of match is determined after taking into account of several factors. Some of the criteria are religion, caste, culture, professional stature, physical appearance and horoscope matching etc. Anybody cannot foretell who will marry whom. Two people may love each other very much, but it may end up not marry each other, and two people who do not even know formerly may marry each other. Therefore marriage is not determined by ours. It is a holy knot between man and woman made by the 'GOD'. In India arranged marriages is a tradition. Arranged marriage is a type of marital union where the bride and groom are primarily selected by individuals other than the couple themselves, particularly by family members such as the parents. In some cultures a professional marriage brokers and matrimonial web site may be used to find a spouse for young person.

The Elements (The Pancha Maha Bhutas) and Rasis (Zodiac Signs):

The elements or "The Pancha Maha Bhutas" as the Vedas describe them are the fundamental building blocks of the Universe. The five elements are essence of entire world, both within us and outside. So it is more than essential to connect with them for tapping in to the powers of Universe. It might seem rather surprising but five elements influence behavior, emotions and overall health. Balancing these elements in just the right way is the key to a happy and healthy life. If we take some time to understand the elements and relate to them, we can use them to stay in balance, physically, spiritually, emotionally and mentally. By understanding the positive and negative aspects of each element, we can turn our minds to use each element in the most effective way. We cannot dominate the elements. We have to surrender to elements and respect them.

Life Partner and Signs of Zodiac³:

When someone is born, the point at 180° degree in the east direction of the earth, in a particular house (sign) of zodiac is called Ascendant (native) of the individual. The opposite point at 180° degree, in the west direction goes towards sunset point falls in a particular house of Zodiac is called 7th house of that native. According to the “Philosophy of Kala Purusha” the first house in the Zodiac is Aries. The seventh house is Libra, which denotes weighing scale. The weighing scale tells both sides are equal. There is no unequal on either side. So if the Ascendant indicates the native, the 7th house indicates the people in front of native and society. Since the 7th house signifies the effects similar to the Ascendant, it indicates the equal status counter parts of the native. The seventh house indicates the people who are in front of the native in all respects like age, education, family status, financial status and professions etc. In this way, the seventh house indicates the people who are openly interact with native as well as the people in front of the native who are in confrontation with the native. It is reiterated that the 7th house denotes the people who are in front in all occasions throughout the life and it is more obvious that one man/woman mostly associates with their spouse only for discussion, meeting and sharing of feelings of all natural events like happiness, sorrows and sexual desires etc. Hence for any particular house, the 7th house from

it leads equal effect of that house, That is for the native, 7th house denotes spouse of that native like for male gender, it is female gender and vice versa.

Elements (Pancha Maha Bhutas) and Life Partner:

According to "Philosophy of KalaPurusha" the Ascendant Aries is a fire rasi (Sign). The 7th house Libra is an air rasi. As per rule of nature, fire and air are compatible together. In general Air plus fire send out flames. Air can lift up and feed fire. So if the ascendant is Taurus (Rishabam), 7th house is Scorpio (Viruchigam). Taurus is a earth rasi and Scorpio is a water rasi. Water can be still and run deep in the earth. It can be bubbling brook, arranging river or oceanic. Water can nourish the earth and shape it. Therefore earth and water signs are compatible and mingled each other. Hence it is understood for any particular house of element and element of seventh house from it are very compatible and mingled each other.

Relationship Between the Elements:

The elements have a relationship with other elements, based on their nature. These relationships are from the laws nature. Some elements are enemies, in that each the blocks the expression of the others. For example fire and water will destroy each other if they get the chance. Earth and water love to hug each other. Air and fire increase each other. Other elements are not so cooperative. For example, water and air can live together, as soda water. But when chance occurs, they separate suddenly). The same occurs with fire and earth also. . Fire is extinguished by sand (earth). Air under earth will come out separately when chance occurs.

Fire and Air Signs are Compatible:-

Aries, Leo and Sagittarius are fire signs. Gemini, Libra and Aquarius are air signs. The combination of fire with fire and air with air are combustible combination. They make relationship very intense. The combinations of fire with air signs are good. They mixed each other easily. They share an outgoing energy and keep the relationship lively.

Earth and Water Signs:

Taurus, Virgo, and Capricorn are earth signs. Cancer, Scorpio and Pisces are water signs. The combination of earth with earth and water with water are very combustible combination that makes very intense. Water with earth are also a natural and if water can nourish the earth and shape it. Therefore earth and water signs are very compatible and mingled each other.

Fire with Water and Earth Signs:

Fire signs are not compatible with water and earth signs. Fire is extinguished by water and earth (sand). Fire feels water logged or hemmed in. Water feels fire too hot to handle. Earth feels fire will scorch them. Air drives water crazy. Earth is ruffled by air. Therefore air sign with water and earth signs are less compatible.

Two Groups of Elements:

According to the nature of Elements and the relationship among the Elements, they can be divided into two groups such as Friends and enemies.

Friends Elements:	Enemy Elements:
Fire + Fire	Fire X Water
Earth + Earth	Fire X Earth
Air + Air	Earth X Air
Water + Water	Air X Water
Fire + Air	
Earth + Water	

Thrikona Rasis (Trines):

According to the philosophy of kalapurusha, the house (signs) are divided into four Thrikonas (Trines)

Houses 1-5-9 are Dharma Thrikona bhavas

House 2-6-20 are Karma Thrikona bhavas

Houses 3-7-11 are Kama Thrikona bhavas

Houses 4-8-12 are Moksha Thrikona bhavas

The fire rasis, Aries, Leo and Sagittarius are in the Dharma Thrikona. Earth rasis, Taurus, Virgo, and Capricorn are in the Karma Thrikona. Air rasis, Gemini, Libra and Aquarius are in the Kama Thrikonas. Water rasis, Cancer, Scorpio and Pisces are in Moksha Thrikona. All thrikona rasis are having one and same elements.

Suitability of Kama Thrikona:

Kama is often referred as lust. It represents sex relation between wife and husband. In the kama thrikona 3rd (house) Bhava indicate sensing organs and nervous system. 7th Bhava indicates wife or husband, married life and exchange of lust. 11th Bhava represents satisfaction and fulfillment of wishes. According to the philosophy of kalapurusha, sign of 3rd house, Gemini has signet of a man with weapon and a woman with fiddle. It shows good relationship of man and woman. The signet of seventh house Libra is a balance. The balance tells symbolically life partner is equal to the ascendant (native). The signet of 11th house is a pot. It shows integer and satisfaction. Therefore it is understood that 3-7-11 rasis are mutual understanding rasis. A life partner joined with native as per "Kama Thrikona" are living in family with happy and full satisfaction.

Vasya Poruttham with Dharma thrikona (1-5-9) and Kama thrikona (3-7-11) Rasis:

The ancient Indian astrologers advised a method, to check the matrimonial adaptability or marriageable compatibility which is called “Marriage Matching” or “Match Making”. They advised the method of matching by porutthams (suitability) based on the birth star of boy and girl. It is known as Dasa poruttham (Ten major poruttham). Among the ten kind of poruttham, 8th one is Vasya Poruttham. “Vasyath Anniyonnia Vasyaham” is a Sanskrit sentence. It is believed that the present of this poruttham, agreement assures mutual love and attachment. Details of Vasya poruttham are explained in “Kalavidhana Patthathi” and “Jataka chantrika” the astrology text books.

Table of Vasya Poruttham (Fasciation):

Rasis	Fascinating Rasis	
	As per “Kalavithanam” ⁴	As per “Jataka chantrika” ⁵
Aries	Leo, Scorpio	Leo, Scorpio
Taurus	Cancer, Libra	Cancer
Gemini	Virgo	Virgo
Cancer	Scorpio, Sagittarius	Scorpio, Sagittarius
Leo	Libra	Libra
Virgo	Gemini, Pisces	Gemini, Pisces
Libra	Capricorn	Capricorn, Virgo
Scorpio	Cancer, Virgo	Cancer
Sagittarius	Pisces	Pisces
Capricorn	Aries, Aquarius	Pisces
Aquarius	Aries	Virgo
Pisces	Capricorn	Aries

From the above said table of “Vasya Poruttham”, it is understood that the concept of fascination is derived from the following factors.

- Philosophy of “Pancha Bhuta” elements
- Dharma and Kama Thrikona rasis.
- Egathipathya Rasis (one and the same planet is to be lord of two Rasis)

Dharma (1-5-9), Kama (3-7-11) thrikonas and philosophy elements are having the same implication. 80% of “Vasya Poruttham” comes under this creed.

Scorpio is the 8th rasis from Aries. They are in sastashtaka (6-8) position. Further fire and water are enemies.

Cancer and Scorpio are having the same elements of water. Hence they are fascinating each other. Cancer and Scorpio are in Dharma Thrikona (5-9) rasis. Cancer and Sagittarius are water and fire signs respectively. Water and fire are mutually enemies. The lord of Sagittarius is Jupiter is having exaltation (Ucham) in cancer sign. Therefore cancer is a fascinator of Sagittarius. They are sastashtaka (6 and 8) rasis from one to another. Fire and water will destroy each other if they get the chance. In order to co-exist fire and water need to separate.

Leo:

Leo is a fire sign. Libra is an air sign. Air and fire are friend elements. Hence Leo is a fascinator of Libra. Leo and Libra are in Kama Thrikona (3-11) rasis in Zodiac.

Virgo:

Virgo is an earth sign. Pisces is a water sign. Earth and water are friend elements. Therefore Virgo and Pisces are fascinated mutually. They are samasabthama rasis (1-7) i.e. the signs are located on 1-7 axis (180° degree). They are fascinated mutually.

⁴ Kalavithana Patthathi - Saraswathi Mahal Thanjavur.

⁵ Jathaka Chandika - Saraswathi Mahal Thanjavur.

Libra:

Libra is an air sign. Capricorn is an earth sign. Earth and air are not friends. But the Lord Capricorn the Saturn is having exaltation (Ucham) in Libra sign. Hence Libra is a fascinator of Capricorn. they are Kendra (4-10) rasis.

Therefore it is presumed that Sagittarius is a fascinator of Pisces. They are 4th and 10th signs from one to another. Fire and water will destroy each other if they get the chance.

Capricorn:

Capricorn is an earth sign. Pisces is a water sign. Earth and water are friends. They are mingled easily. Hence Capricorn is a fascinator of Pisces. Capricorn and Pisces are kama Thrikona (3-11) in the Zodiac. Kama Thrikona rasis are fascinated each other.

Aquarius:-

Aquarius is an air sign. Aries is a fire sign. Air and fire are mingled quickly. Hence Aquarius and Aires are fascinated mutually. Aquarius and Aries are in kama thrikona (3-11) rasis. They are fascinated each other

Capricorn and Pisces are kama Thrikona (3-11) in the Zodiac. Kama Thrikona rasis are fascinated each other. According to the nature of elements it is understood that water with fire and earth with air are not mingled together. Table of "Vasya Poruttham" shows that two rasis, govern by one and the same planet, are fascinating each other. Aries and Scorpio are 6th and 8th rasis from one to another. Taurus and Libra, are also 6th and 8th rasis from one to another. "Kalavidhana Patthathi" a text book of astrology says that according the opinion of vidhvans (experienced and expert Astrologers) "Sastashtaka" rasis (6-8) are not good for marriage matching.

Destiny of Life Partner:

It is clearly understood that the ascendant of native and the ascendant of life partner (spouse) set in Kama thrikona (3-7-11) and Dharma thrikona (1-5-9) are good for marriage. If so they are very compatibility. Their marriage life becomes a good life of love and charity. If the ascendants of life partner are 6th and 8th rasis or 2 and 12th rasis, their marriage life is not good. They are in hostility. There is no mutual understanding between them. If the ascendants of life partner are 4th and 10th rasis there is materialism abounds between the couples. Qualities like love and affection are very rare.

Conclusion:

Jothisha (Astrology) is the divine science. It can foresee any problems in married life and precisely determine which area is shall the problem root from. While match making astrologer gives importance to birth star of boy and girl and tally the matching with reference to a ready reckoned table available in the “Panjangams” and almanacs. It is not a proper method. Experience astrologers give importance to the horoscopes boy and girl. While checking horoscopes for marriage, principle of Pancha Bhuta Thatthuva, dharma and Kama thrikonas are to be observed. Ascendant of both boy and girl should not come as 6-8-12-signs while counting from to another. This is said to make life troublesome, or enmity between the couple. The ascendant of boy and girl should come as 1, 5, 9, 3, 7, 11-signs reckoned from one to another. This kind of couple will have identical ideas and thoughts. They live a comfortable and fulfilling happy life.
