**Rules Relating to Progeny/Child Birth:**

One of the greatest blessings in human life is, blessing with having Children/ Puthira Pakkiyam. As we seen above as per Astrology Puthira Pakkiyam is not having the Kids only Male or Female. A clear and blessed privilege of children means the couple having both male and female. So, in Astrology the progeny related Planet is Jupiter or you can say Guru the Puthira Bavathy and the Bava is mainly related with fifth Bava and lord orbits on the bava and the aspects of Planets which are connected with fifth bava. So as in the Natal Chart the we have to analyze with extra care, from the Ascendant what is Rasi/Zodiac sign falls as fifth bava and its lord, the relationship between the fifth bava's Lord and Jupiter/Guru, whether any Planet orbits in fifth bava, if it is there then the relationship with the Jupiter and Lagnathipathy/Lord of Ascendant also to be taken in to consideration for analysis. Here there are some important rules laid with the help of Original texts of Astrology.

- While on Transiting the Jupiter aspects the fifth Bava/fifth house then the Lagnathi pathy may get conceived/progeny.
- Same way in the Natal chart, Lord of 5<sup>th</sup> house/Jupiter having the aspects to the fifth house, means the Jadhagar gets progeny/Child at normal age.
- In any Natal Chart the fifth Bavathipathy orbits within first six Bavas then the person will get Child on normal/early age.
- Sun and Jupiter conjunct with Ninth Bava Lord, then the Jadhagar gets possibility of more children.
- The person born on Libra the Lagnam normally having first Child too late.
- If the fifth house is aspects or orbits by a male planet there is a possibility of having a male child. Similarly, the fifth house is occupied by a female planet then the Ascendant may have female child more than male child.
- Lord of fifth house, Venus and Moon are together conjunct in one of the Sign Taurus, Cancer, Virgo, Pisces, Scorpio, Capricorn, then the Ascendant will get the possibilities of more female children.
- If Lord of fifth Bava orbits at Seventh Bava, the Jadhagar may not have any Male child.
- The conjunction of fifth Bava Lord and Eleventh Bava lord in Natal Chart gives the result of character wise good children.
- If Saturn and Moon conjunct in the seventh Bava then the Jadhagar will blessed to get child in older age/too late.
- Lord of third House, aspects or orbits at fifth bava, the Horoscope/Jadhagar get child after too long period from his marriage.
- If Mars orbits at fifth bava then the Jadhagar's first child may get abortion or he may loss his first child. And the next live will be depends on other planets position.
- In the tenth bava is conjunct with malefic planets, or Raghu and the Mars orbits at fifth bava the Jadhagar will give birth to a child after many difficulties.
- In any Natal chart, Ascendant and the Lord of fifth house conjunct at bad luck Houses/Dhusta

sthanam of sixth, eighth and twelfth houses and not having aspects of any naturally benefic planets the Jdhagar has adopted a child and he is blessed with adopted child.

- If the fifth bava Lord is Mars and he conjunct or aspects with Saturn the he is blessed with adopted child.
- Any Male's Natal Chart, Lord of seventh bava and the Venus orbits at sixth bava then the Jhadhagar's wife may barren.
- Also Sun and Venus orbits or get connection with the Zodiac Scorpio, then his wife will be barren by some medical reasons.
- In any Natal Chart, Lords of second Bava, fourth Bava and eight Bava orbits at twelfth Bava and not having aspects of benefic planets then there is more possibilities of having no child position.
- Except all above, in any Natal Chart, connected or involved with each other in any way with fifth, seventh and Ninth Bava and the seventh bava get aspects with Jupiter the Jadhagar will love or marry with a partner who is having Child/Children.

#### **Indian culture and Child Birth:**

In India people felt that heir is somewhat quit important. If there is no heir then there will be many upsets in the whole family and relatives. Mainly parents of the couples get worrying much and ready to do anything to see their heir as Grand Children. We are seeing in the society there are many divorce case been registered, because of having impotency and posterity. So, when couples having issues with pregnancy or unsatisfied with their life partner they believing the two main category people, one is Doctor and another is Astrologer. They use to believe both of them are real Heroes to Guide them on this issue. So, it is duty of any astrologer while predicting, any Horoscope regarding, Fifth bava/Child birth, has to take careful consideration of all planets and Dasa Puthi, connected with transits of planets, to come in conclusion whether the couple is going to blessed with Kids or not.

#### **Main Blemishes of Natal Chart:**

Except all those rules regarding fifth bava for child birth, there are three main blemishes/Doshas that affecting the Poorva Puniyam/fifth house are also to be carefully analysed. Upon the three first is coming Worship of Family God/Gula Deivam. It is to be very important in any Hind Family Worship. Normally without permission of Family God or without worship of Family God the family experience obstacles in every step to improve their life style. In natal chart the indication of Family God is also the fifth bava. The planets Venus, Raghu, Kehtu and retrograded planets orbiting in the fifth bava indicate the less blessing from the Family God to the particular Natal Chart. Such a way of orbits indication is in the Male's Natal Chart, then the couple will get only female children.

Again, in any Natal Chart the combination or conjunct of Jupiter and Saturn in the Virgo indication is less blessing from Ancestors, who died. This Known as Pithur Dosham which indicates that, the family members never reminded their ancestors, and not done the regular Pithur Dharpanam. This also lead the generation come to an end, which means the family members not going to have heir. Third Dosham/ blemish is Manthi Dosham. Manthi in any Natal chart orbits at fifth bava or aspects fifth bava or conjunct with Shadow planets Raghu and Kethu and orbits at fifth bava is known as Manthi Dosham. If it is seems any Natal Chart, then the person, get frequent abortion. Virtue gives us with the blessing of Child, while Rahu, Ketu and Sun orbits at fifth bava then the Child with health defects.

And if Mars and Manti are orbits at fifth bava, and the fifth bava Lord, orbits and disappears in 6.8 or 12<sup>th</sup> bava then also the child may born with possibilities of disability. In addition to spoiling the privilege, it would also be worrisome to be 'humiliated' in many places. Rahu and Manthi combination often causes abortion (miscarriage). When Ketu is placed in the 5<sup>th</sup> house leads mostly the Jadhagar praised with female child or infertility. In some people's horoscope, even if the child, blessed by Ketu in the fifth house and aspect of Guru and Venus by planetary strength, the mother and father will be separated from the child or the child will live alone due to parent's death. If the Sun is in the fifth house it also known as Pitrudosham. Also the conjunct of Manthi in the fifth place or with fifth Lord is known as Death Curse (Pretha Sabam). If any horoscope affected by this, met unexpected accident while on travelling to any Temples or important functions. For all those there many remedies laid down in the original texts like Lal Kitab. Main remedy is Thila Homam, a prayer with gingili seeds with fire and slogans with prayer to our ancestors, to be held in any Temple or river banks or Seashore or any temple next to the river or seashore.

#### Analyze of Female Chart:

Born in Libra/Thula the Ascendant, Tarus/Rishab the Rasi. From the Ascendant the fifth bava Lord Saturn, orbits at Pisces/Meenam on the star of Jupiter the Karaka of Child. Also the Karaka the Jupiter aspects the Saturn. However being the retrograde position of the Saturn, the Jadhgar experiences one abortion first and after that blessed with one male child. So the Puthira Dhosham rules behind are from the Ascendant:

- Fifth bava Lord orbits at sixth bava
- Fifth bava Lord Retrograde.
- The second bava Lord Mars aspects the fifth bava and fifth bava Lord from Adverse Position.

#### Advantages are:

- The second Bava Lord aspects the second bava which is good and improves the development of second bava to lead the family to expand.
- The third bava Lord and the Karaka of fifth bava the Jupiter aspects the fifth bava Lord.
- Also Jupiter is in the position of exalted.

On the other way if you look from the Moon, the Rasi, the fifth bava comes as Virgo and in the Virgo/Kanni, the Sun and Venus orbited in Natal Chart. It indicates the debilitated position of Venus is disadvantage and the sun's position of fifth bava is not more favorable. Still the Venus transaction with Mercury and comes under the rule to given the child to the Natal Chart.

The same way we can also analyze the one's progeny from the Karaka planet. Here the Karaka Planet Jupiter orbits at Cancer in exalted position and from the Cancer the fifth bava is Scorpio, and the Lord of Scorpio the Mars orbits at second bava from the Jupiter and aspects Scorpio which means the Horoscope may have child.

#### Analyze of Male Chart:

The Male's horoscope born in Leo the Ascendant and Aquarius as the Rasi. Moon orbits at Aquarius and stands in the star of Raghu/Shatabhisha.

On the fifth bava Sagittarius, Sun orbits which is not favor for child birth. Also Sun stands on the star of Venus which is also not favorable. But the Lord of fifth bava Jupiter orbits at Aquarius and aspects the Ascendant, which is gone favor for the horoscope. Except Jupiter, there is no planet is favoring to fifth bava of the horoscope. So, with the strength of his wife Puthira Pakkiyam the Jadhgar blessed with a son.

#### Analyze of Female Chart:

Aries the Ascendant, Taurus is the Rasi of the female horoscope. After marriage she also getting problem with conceiving. The Uterus notification bava eight is occupied with Mars, Kethu and Venus. It is noted that because of Kala Purusha Rasi is the Ascendant for this horoscope. So the findings relevant to Puthira Dhosham are as follows:

- Even though the eight bava get affected by Kethu and Mars. But the Mars is Ascendant and Lord of

that bava. So, the Jadhagar experienced and met two abortions and finally have a female child.

- The fifth bava Lord Sun orbits at sixth bava, Virgo which gives clear indication that the Horoscope going to get some difficulties on progeny.
- Whereas the Sun in Virgo gets Vargothamam gives the positive results to the horoscope.
- And fifth bava gets aspects of Saturn from Aquarius which gives good results and favorable to the Ascendant.
- The Saturn which stands at Aquarius in the star of Raghu/Sathayam and the Raghu orbits at second bava, and helps to expand of second bava after some bad experience.
- The Karaka Jupiter orbits at third bava is also stands in the star of Raghu/Aruthra and the Ragu conjunct with Moon which is in exalted place, but not exalted.
- So, here the fifth bava gets soo weak, but and because of the strongest second bava gives them a one female child to alive. This is also a type of Puthira Dhosham.

#### **Analyze of Male Chart:**

Born on Capricorn as Ascendant, and Gemini as Rasi and the Moon stands on the star of Arudra. Analyze of fifth bava is as follows:

- Being the Ascendant Capricorn, the fifth bava falls on Taurus and on the Taurus Mars orbits which means the Lord sits on the bava is not favorable.
- Karakathipathy Jupiter orbits at Aquarius in retrograde position also not favor to the Horoscope.
- Again in Ascendant the conjunction of Saturn and Kethu is not good for family life and improvement of that bava.
- However, the aspects of conjunction of the planets, Sun, Mercury and Raghu from the seventh bava is only favorable to the Ascendant and it's a clear indication that the first born child has to be aborted and second or the third has to be live with the Jadhagar.
- The fifth bava Lord Venus orbits at eight to the Ascendant and weakening the bava's character.
- And from the Moon, again the fifth bava Lord is Venus and its orbits at malefic position from Ascendant.
- From Jupiter the Moon orbits at fifth, which have its original position to sixth from the Jupiter.

While analysing to the fifth Bavathy, the Venus, orbits at Aries on its own star. Being the Venus, also the 12<sup>th</sup> bavathy of the horoscope caught between Ragu and Sun there by in Bhavakathari yogam. And Karakathipathy Jupiter orbits at Pisces its own house but from the fifth house its orbiting house falls at 6<sup>th</sup> house. Also for the Ascendant Gemini, the Jupiter is one of the malefic planet and orbits at karma bava which restrict the Horoscope to have child. Still the fifth bavathy generates his strength, the female got Progeny at its Bhuthi, but got aborted.

Anaysing of Male's Chart Virgo the Ascendant, Capricorn is the Rasi, where the Moon housed. The planet of the Capricorn Saturn interaction with Venus the Second Bavathy, in exalted position in Libra. Also the both interacted planets are friendly and the result should be positive.
